NYC DELIVERY WORKERS ARE ELIGIBLE FOR DISCOUNTED FIRE-SAFE E-BIKES

40% OFF A TERN E-BIKE

Select delivery workers can trade their e-bike, e-scooter, or e-moped for a discounted UL2849-certified Tern Quick Haul with two Bosch batteries. E-bikes in this program will cost $2,200 (plus tax). This represents a 40% discount off the retail price of $3,775 (plus tax). Old vehicles and batteries will be safely recycled.

LOW MONTHLY PAYMENTS

A low-cost, 12-month loan with no credit score requirement is available from Spring Bank. Delivery workers who choose this option can purchase their e-bike through low monthly payments. For example, a $1,000 loan would cost about $88/month, and a $2,500 loan will cost about $220/month.

The Spring Bank loan is available to individuals with an IDNYC, regardless of credit history. This loan provides an opportunity to build a positive credit history. For more information visit www.spring.bank/gogreen-cycle-loan.

WHY UL-2849?

There have been more than 200 fires caused by low-quality lithium-ion batteries in New York City in the past year. The NYC Mayor recently signed a bill requiring all new e-bikes sold in NYC to be UL-2849 certified—the highest fire safety certification available today. Because of their high-quality, UL-certified e-bikes are more costly than some e-bikes.
